

Directions to Costa Bella: K-36.7

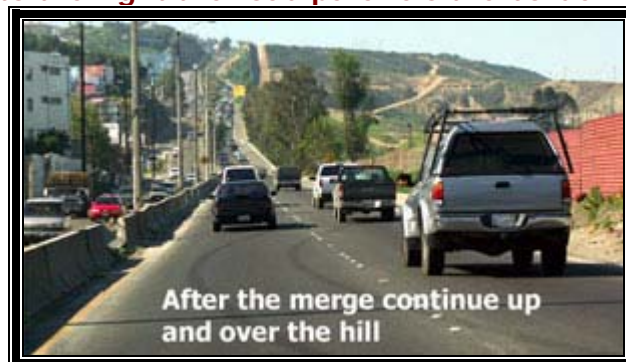

Take the I-5 South. After Del Mar, choose I-805 South for a more direct route than I-5. Cross the border into Mexico and once you are inside the border get in the first lane from the right.

Follow the signs that direct you to the Scenic Road to Rosarito and Ensenada.

After the off ramp to the right the road parallels the border for about two miles.

The road then heads up and down a steep hill where you will be alerted to exit to the right.

The sign for this road will be "Toll Road" or "Scenic Road."

Two miles later you will pass through the tollgate. Tolls are around \$2.45.

Rosarito is located about eight miles down the toll road. There are four exits into Rosarito. Take the last exit: **Rosarito Sur**. Go to the stop sign and turn left on the free road. If you miss the last Rosarito exit for the free road (and it is easy to miss, so watch carefully), just before the second toll gate, there is a Pemex gas station and an AM-PM Mini Market. You can drive through the gas station (to avoid having to pay another toll) and go left on the free road from there. Go past all the shops, Fox Studios, and when you see Calafia (K-36), it is just around the bend. **Costa Bella: K-36.7**. If you get to Hotel Las Rocas and the Jesus Christ statue on the hill, you've gone 6/10 of a mile too far.

Notify the gate guard and go inside to park. It is the Building B on the right. Unit 604B - Top Right Corner. Take the stairs. Use the elevator if you have a lot of time and enjoy risk.
